

TickITplus Capability Course

This two day training course prepares candidates for successful qualifications as TickITplus Capability Assessors and Practitioners. The course builds on the knowledge gained from the Foundation course and is intended to guide delegates in the application of TickITplus in practice at the Capability level, while also preparing them for taking the Capability level examination.

Benefits:

- Understanding of the TickITplus requirements at the Bronze and Silver levels
- Awareness of the approach to assessments at Bronze and Silver levels
- An understanding of the improvement requirements contained in the scheme based on process outcomes
- Preparation for the TickITplus Capability exam (which is usually takes place on the second afternoon of the course)

Who should attend:

- Process implementers
- Quality managers
- Process improvement group members
- TickITplus assessment team members
- Candidate TickITplus Capability Practitioners
- Candidate TickITplus Capability Assessors
- Anyone interested in TickITplus Bronze and Silver

Course contents:

- Review of TickITplus & Foundation level
- Introduction to TickITplus Bronze & Silver levels
- Process attributes and generic practices
- Outcomes
- Process capability assessment concepts, variants and methods using TickITplus
- Recap of the TickITplus Process Reference Models (PRM) and its use for Capability Levels
- Introduction to TickITplus High Maturity

Pre-requisites:

Delegates must have completed the TickITplus Foundation course.
